Lifetime Access

- Course Access Never Expires
- Free Access to Future Updates
- Unlimited Access to Course Content

24x7 Support

- One-On-One Learning Assistance
- Help Desk Support
- Resolve Doubts in Real-time

Hands-On Project-based Learning

- Industry-Relevant Projects
- Course Demo Dataset & Files
- Quizzes & Assignments

Industry-Recognised Certification

- Edureka Training Certificate
- Graded Performance Certificate
- Certificate of Completion

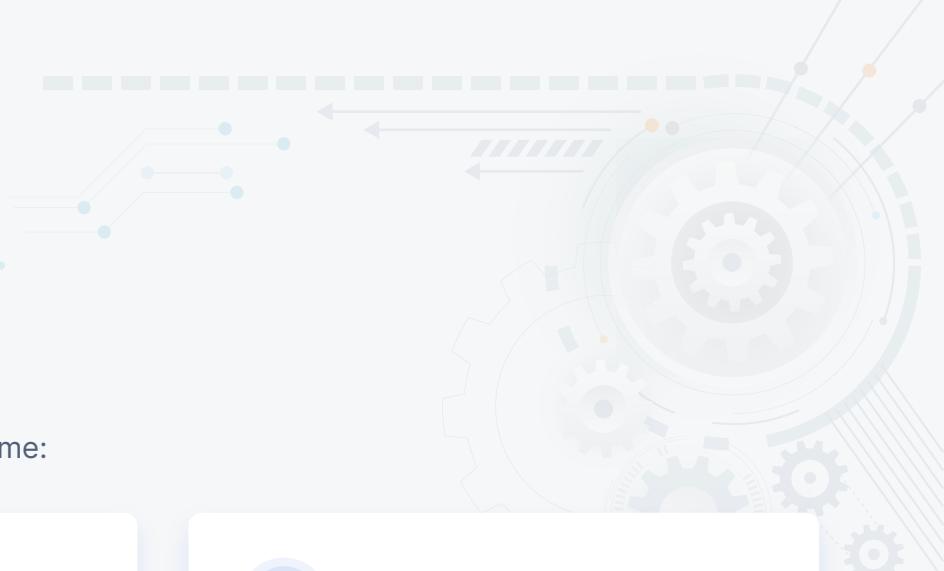

Training Benefits

Java is one of the most used programming languages as the world is moving towards mobile apps and convenience. Java is very easy to learn and can help you in a high-salary job.

Program Details

Who should go for this Java Certification Training Course?

This Java Certification Training Course is designed for professionals aspiring to become:

1 **Java Developers**

2 **Programmers**

3 **Web Developers**

4 **Web Designers**

5 **Programming Hobbyists**

6 **Database Administrators**

Youngsters who want to kick-start their career are the key beneficiaries of this course.

Table of Contents

• Introduction to Java	08 Topics	• Servlets	04 Topics
• Data Handling and Functions	07 Topics	• JSP	06 Topics
• Object Oriented Programming in Java	08 Topics	• Hibernate	07 Topics
• Packages and Multithreading	04 Topics	• Spring	08 Topics
• Java Collections	03 Topics	• Spring, Ajax and Design Patterns	07 Topics
• Web Services and Projects	05 Topics	• SOA	08 Topics
• XML	04 Topics	• Web Services and Projects	05 Topics
• JDBC	06 Topics		

Curriculum of Java Course

Skills Covered

- ✓ Object-Oriented Programming
- ✓ Java Collections
- ✓ SOA and Web Services
- ✓ Java Web Frameworks
- ✓ Working with JDBC
- ✓ Design Patterns

Tools Covered

Projects

Industry: Banking

Towards the end of the Java online training course, you will be working on a live project. The project is from the Banking domain, dealing with web services. Following modules need to be developed for the project:

Module 1: This module accepts user ID and password and authenticates the given credentials with the database using hibernate

Module 2: By accepting the type of account (SB/Current A/c) and user's details, account will be created

Module 3: Perform the debit and credit transactions

Module 4: Accept credit card information with the desired details and authorize the credit card amount using web services

Module 5: Display transactions of the account based on given date range (from a specific date to a specific date)

Learner Stories

Ankit Sharma

Software Engineer -
LabVantage Solutions Inc

It's very simple to learn and interesting too. The way our instructor is teaching us is simply awesome. The thing which I like the most about Edureka is its support service, as I have got all my queries answered by them on time. Thank you Edureka :)

Rohit Jha

Intern - Brane Enterprises

I enjoyed being a part of the Edureka Java & J2EE. It was a great experience, and I got the chance to sharpen my skills and pick up a few new ones along the way. I want to thank my instructors, who twisted and pulled my mind in ways I wouldn't have considered while encouraging me to find the needed answers. Overall it was a good learning experience. I learnt new tools like Tomcat, Maven, Swing and much more.

Sri Harsha Kakani

Technology Lead
at Synechron

I'm happy to announce that I'm a certified Java and J2EE developer. Thanks to #edureka for a wonderful course. Good start to 2023. Many more to come!
